PREFACE

As a glance at the Table of Contents would reveal, this Bulletin, the first Alumni Directory to be published by the University of New Mexico, is intended to give a complete record of its graduates and a list of the members of the Board of Regents, the Officers of Administration and the Faculties of the University since its opening in 1892. If found to be of intrinsic value and interest, it is hoped that a revised edition be issued every five years and, if feasible, a pictorial and historical sketch of the University should be included.

To the name of each person known to be deceased, an asterisk (*) has been prefixed. A dagger (†) following an address indicates that we have not heard directly from the person, but believe the address given to be correct. When two addresses follow a biography, the first indicates the present and temporary residence; the second, the permanent address.

The University wishes to be kept informed of any change in address or profession.
